It isn't easy to always keep a happy attitude. There's a special verse in Philippians 4:8 that gives us a secret formula to keeping a happy attitude. It reminds us not to think on unhappy things but to think about things that are true, noble, right, pure, lovely, admirable, excellent and praiseworthy.

Cut out the face and face pieces. See if you can win the happiness contest!

For the Teacher: Duplicate the page for each child. Divide the class into teams of four or five. Provide a paper lunch sack for each team. Each child should put the game pieces into a bag. Moving clockwise, the bag should go from child to child as each one picks a piece from the bag. As the bag passes, if that student can use the game piece, he or she should place it on the face game board; if not, it should be put back into the sack. If anyone picks a frown, that player is out of the game (the point of the arrow will tell you if the mouth is a smile or a frown). The first one to make a complete face is the winner.
